## About

I am the Executive Director of a 501(c)(3) non-profit, Maximum Impact Media, Inc. All funding by donors represents a charitable tax donation. Neither I, nor the Board of Directors, receive a salary. All of the funding goes to pay for a license to video "B" roll at a nearby Gettysburg reenactment, which the organization currently does not have.

I live in accessibility to Gettysburg, PA where a reenactment occurs centered around July 4th. It would be exciting to have 3D video of a historical reenactment of the battle at Gettysburg. Not only would it make the action come alive, but it would honor those who fell, as does a song, "If it would only rain," by the folk-rock trio, Gathering Time. With this funding, we hope to combine the excitement of 3D video with the talent of this trio who deserve recognition in their own right.

Listen to: "If it would only rain," here:

## Support

### Pledge \$10 or more

#### Streaming - 1 song

Viewing via streaming of the completed "If it would only rain" video

ESTIMATED DELIVERY  
Dec 2018

0 backers

### Pledge \$25 or more

#### Streaming - all songs

Viewing via streaming of all songs of the completed video

ESTIMATED DELIVERY  
Dec 2018

The song, "If it would only rain" is about a civil war soldier. You can hear it above or on the [Maximum Impact Media, Inc.](#) website. You can see this talented band in a live performance at the World Folk Music Showcase on our [YouTube channel](#) and [website](#). The DVD will include this song and other songs about the Civil War era as a music bed to the video besides performance footage of the band. The Civil war reenactment video represents "B" roll to augment the story in the songs. Mini-documentaries with the story behind the song are planned to be interspersed between each song.

You can see an excerpt of the Showcase video here where stock footage was used as "B" roll for their songs in the performance.

We have 2 [Panasonic AG-3DA1 cameras](#) which natively shoot 3D video. I haven't found any 3D stock footage of Gettysburg. The non 3D stock footage is prohibitively expensive. It is more cost-effective to purchase a license to film the event. My wish-list to license 2 cameras for multi-camera editing though to meet target funding, I am willing to settle for at least 1.

The cost to be allowed to film the [Gettysburg reenactment](#) is \$1000-1500/camera depending on if the payment is made by June 15th. Since 1 camera license costs \$1000 (\$1500 after June 15th) and kickstarter needs to be fully funded, I am setting the deadline as June 30th to give enough time to fund the project. Since the camera license is a fixed amount and kickstarter requires 5%, I have to ask for more than the required license amount.

If the funding over-reaches the target amount of \$1500, then extra funds would be used to purchase a second camera license (for both long and closeup shots) if \$2000-3000 is reached depending whether it is past June 15th or not. By opting for at least the lower target goal, at least 1 camera could be funded. If I chose the higher \$3000 goal, then there is the possibility that neither camera could be funded by not reaching the target goal.

If more than \$3000 is reached, these funds would be used to offset the costs of replicating and packaging the DVDs. Anything beyond those funds would go to the non-profit's activities. Rest assured, there is transparent reporting to governmental agencies as it is a charity. No funds go to any of my personal use.

## Help Wanted <sup>Labs</sup>

Maximum Impact Media, Inc. is looking for people to get involved in the following way:

Volunteer to assist in watching equipment should I need to run to the restroom.

The funds would be well spent on educational and charitable activities.

[Help out](#)

Just to have all business clear, the recordings will remain the property of Maximum Impact Media, Inc., with all rights reserved. Backers will only receive their reward item.

We are experienced at producing multi-cam 2D and 3D videos. We are also experienced at producing DVDs. Aside from funding the license to video the reenactment, there is great potential for the project to succeed resulting in donors receiving their rewards.

[Click here to read the Gettysburg event videography contract](#)

Gathering Time was named the #1 folk-rock band of Long Island.

If Gathering Time cannot subsequently be involved with this project then another band of equal talent will be found to complete the project.
